Spa Technology

Written by Sara Jones

SolTec Lounge

The SolTec Lounge delivers a sound, magnetic and vibration therapy session that improves overall sense of well-being & tranquility, and profoundly relaxes the body and mind.

Jeff Kohl, SolTec distributor, points out, "In our more than five decades in spa, wellness and hospitality, the SolTec Lounge is one of the most creative, exciting and effective stress-relieving tools we've seen. We call the effects achieved from a session, 'Restorative Relaxation.'"

The technology for the SolTec Lounge was created by Dr. Dan Cohen, who is known for licensing and bringing to market the Breathe Right nasal strip. This project began in 1996 as a means to develop an easy way to induce profound levels of relaxation and meditation.
